EVENT DESCRIPTION:

Brain Vita is a one player game involving movement of marbles on a circular board with 33 holes. The aim of the game is to get rid of all but one marble by jumping a marble on top of the adjacent marble either horizontally or vertically on the board. One wins the game when only one marble is left on the board. The circular board creates a dynamic gaming environment, providing players with an array of options for maneuvering marbles. The challenge lies in discerning the optimal sequence of moves that will progressively deplete the marbles, ultimately leaving just one in play.
